472 CARLOADS SUGAR LEAVE FOR NEW YORK

Four hundred and seventy-two carloads, or fifteen freight trains, carrying only sugar, represent the exceptional shipment of this product from the Hawaiian Islands to the east through this city during the past week. The cargo was that of the American-Hawaiian steamer Texas which reached port the first of this week with a 14,178 ton cargo.

The cargo was the largest to leave the islands.

Poundman Hurt In Runaway

Brised from head to foot, Poundmaster Frank Meader lies at his home, 705 Fourth street today in a critical condition as the result of a fall from his horse at Stege Junction last night.

A broken girth strap was responsible for the fall in which Meader was dragged for nearly fifty feet, the horse becoming entangled in the loose straps and falling upon him. He was removed to his home where Dr. C. R. Blake is attending him.

DAN CUPID ENDS MUSIC SCHOOL ROMANCE

A romance starting at an eastern conservatory of music culminated before the altar of the Wesley Methodist church this afternoon at which time Otto Keller, a restaurant proprietor claimed as his bride Miss Bertha Cornelia Lund, daughter of John Lund a merchant of this city.

Keller first met Miss Lund two years ago at which time she was a student at the Concordia Conservatory of Music at Moorehead, Minnesota.

The wedding was performed by Rev. Frank Linder pastor of the church. Mr. and Mrs. J. Pearson relatives of the bride attended.

NURSE CUTS HAND WHILE MOVING FURNITURE

Housemoving at the home of Dr. C. E. Camp, San Pablo, this afternoon resulted disasterously for Miss Treva Fish a nurse.

Miss Fish was attempting to move a granite mantle when it collapsed, cutting a gash on her right hand. Three stitches were taken in the wound.

UNCLE SAM GETTING "WAR DOGS" READY

PHILADELPHIA, April 21.—The League Island Navy Yard, guarded by heavily armed marines, is a scene of extraordinary activity.

Drydocks and every valuable piece of Uncle Sam's fighting material is being guarded every minute of the day and night. Sailors are working at top speed putting new gray coats of plaint on the warships here.

CLASS AD PUTS A CRIMP IN DIOGENES

Old Man Diogenes might just as well toss away his lantern.

He's been looking amongst the wrong class of people for the elusive honest man. If the old "geezer" had tiptoed around the tents of the Al. G. Barnes circus at the First street grounds Wednesday night he might have made his discovery. But his antiquated sleuthing has been badly shattered by a Record-Herald class ad.

It was a class ad in the Record-Herald which this morning returned to C. B. O'Hara from Woodland his leather wallet found by a circus employee on Wednesday night.

SALOONMAN IS HURT; FALLS OVER WALL

Tripping while engaged in cutting the lawn, precipitated Gus Johnson, proprietor of the Stag saloon, on San Pablo avenue and a heavy lawnmower over a six foot embankment today. Johnson was picked up unconscious.

Three teeth were knocked out, his right arm broken, his left wrist sprained and his back injured as a result of the accident. Dr. C. R. Blake is attending him.

(Special to Record-Herald)

MARTINEZ, April. 21.—Grace Tyler, of Richmond today commenced suit against her husband John W. Tyler, a plumber on grounds of desertion.

The couple were married at Reno, Washoe county, Nevada, December 2, 1902. Tyler is alleged by his wife to have deserted her June 22, 1914.

Attorney W. S. Robinson is representing Mrs. Tyler.

$63,000 SUIT FOR BREACH OF WORK

(Special to Record-Herald)

SAN FRANCISCO, April 21.—The North American dredging company, working at Richmond, was named defendant in a $63,000 damage suit filed against them in the United States district court today by Manuel Dos Ries and Antont Dos Ries of South Vallejo.

The plaintiffs allege the dredging company to have failed to carry out a contract for the filling of certain marsh lands.

MARTINEZ POLICE MAY GET UNIFORMS

(Special to Record-Herald)

MARTINEZ, April 21.—There is a possibility that the police force of Martinez may get a uniform. The reason urged therefor is that the mere fact of an officer in official garb being in sight has a restraining influence over men who have a peace-disturbing tendency in their makeup.

It will be some time after Easter before the force will get its suit.

BAKERY GONE; BAKER TAKEN TO JAIL FOR LARCENY; WILL FIGHT CHARGE

Jack Duranta, a baker occupies a cell at the city prison on the unique charge of having stolen an entire bakery.

He was arrested today on a grand larceny charge preferred against him by Guisseppe Poggi, proprietor of the Italian-American bakery, 163 Fourteenth street.

Both men were arrested two weeks ago for fighting. Misdemeanor charges followed. Then they severed partnership. Last evening Poggi returned to his bake shop to find everything missing.

His loss follows: Two horses, two wagons, 100 baking utensils, cash register and 400 customers.

Poggi charges Duranta with having disposed of the entire bakery to the Torino Baking company, 125 Richmond avenue.

Police Judge Hiram Jacobs will hold "twilight court" this evening at which time the case will be heard.

FRACTIOUS HORSE KICKS MAN IN STOMACH

James Robbins, a teamster received possible internal injuries when kicked in the abdomen by a fractious horse at the Standard Oil tank farm at San Pablo today.

Robbins was treated for his injuries by Dr. C. E. Camp.

The force of the blow knocked Robbins unconscious. Fellow workmen found him and removed him to the doctor's office.

BENEFIT WHIST FOR 5 ORPHAN CHILDRHN

A benefit whist party is being planned by a number of Pullman residents to aid the five orphan children of Mrs. Cornelia Glastra, deceased.

Prizes for the party have been donated by local business houses.

PEACE HOPE CONTINUES AT CAPITAL

WASHINGTON, April 21.—Secretary Lansing, who conferred with the president before the cabinet meeting, said he did not expect any action until a reply was received from Germany or unless another ship carrying Americans was torpedoed by a German submarine.

WASHINGTON, April 21.—While government officials today were anxiously awaiting Germany's final word in the diver crisis there was a noticeable absence of the pessimism which prevailed when President Wilson read his informative address to congress.

NOTE REACHES KAISER

BERLIN, April 21.—America's note with representations of Imperial Chancellor von Bethmann-Hollweg and Foreign Minister von Jagow have been presented to Kaiser Wilhelm, who is with his army at the front.

DRUGGIST CALLED SOUTH BY DEATH OF FATHER

(Special to Record-Herald)

LOS ANGELES, April 21.—Augustus Lang, a pioneer druggist of this city died this morning. The deceased was 70 years of age. A son, A. C. Lang survives him at Richmond, Cal.

A telegram telling of his father's death was received this morning by A. C. Lang, local druggist. He will leave tonight to attend the funeral.

SENTIMENT FOR S. O.; WILL HAVE 3 A FLEET

Who says a corporation is without sentiment?

Come word today that the Standard Oil company will name three of the new steamers it is having built at the Union Iron Works after the three largest windjammers under the American flag, the Acme, Astral and Atlas.

The Acme, Astral and Atlas were turned out for the oil company at Bath, Me., in 1901, 1902 and 1903 and created something of a sensation in the shipping world. They were regarded as three of the finest sailers afloat. The three ships have changed name and ownership since, but they still enjoy that distinction. Now they are the Star of Poland, the Star of Zealand and the Star of Lapland of the Alaska Packers' fleet.

PLANS FOR PACIFIC MOTOR POWER SHOW ARE NOW COMPLETE

Entries are pouring in for the great parade of illuminated and decorated automobiles which will open the Pacific coast motor power show, the greatest exposition ever to be given in the eastbay region, at the Oakland auditorium Wednesday evening, April 26. From all indications the parade will be the greatest of the kind ever held in Oakland. More than 500 pleasure cars will be entered and nearly a hundred commercial trucks, tractors and other products will be in line. After passing through the downtown streets the parade will wind around Lake Merritt. The lake boulevard will be illuminated and this portion of the trip will be among the greatest spectacles ever seen in Oakland.

There will be automobile delegations from San Diego, San Francisco, Stockton, Sacramento, San Jose, Berkeley, Alameda, Richmond, Martinez and other cities. The officials of the San Diego exposition are coming to Oakland to attend the opening night of the show and to boost for the Panama-California International exposition. They will be the guests while in Oakland of the chamber of commerce and the city officials.

More than 100 exhibitors have taken space and more than 50,000 square feet of floor space will be utilized. All of the space in the auditorium arena and that of an annex building 450 feet long is required to house the exhibits. Daily demonstrations by pretty girls in uniform will be given to the hundreds of motor driven products which will be on display. The automobile exhibits will be the most complete ever shown in the west and will be the same as the great automobile shows held in New York and Chicago.

In addition to the splendid displays, big entertainment, programs will be given every afternoon and evening. Music will be furnished by the Royal Italian Sextette, among these musicians being Rosina Rocavalli, the famous pianist, protege of Mascagni, the great composer. The Hawaiian singers, who were among the hits of the Panama-Pacific International exposition and were a great feature of the Oakland Womens' Household show, will be heard daily and another big feature will be the singing of Monte Austin, known for his rich and powerful voice to every baseball fan in the country. Austin sang the song, "The Motor Show" at the opening of the baseball season in Oakland this year. He will sing this song and "California" at the power show ever afternoon and evening during the ten days of the show. "The Motor Show" was written by Edith Maida Lessing, the popular actress and dedicated to the power show. Copies of this song will be given to every woman attending the outdoor sports show which will be a feature of the power show. Another big entertainment feature will be the auto pigs, trained porcine actors who ride their own automobiles, box, play cymbals and do other interesting and seemingly impossible stunts.

ROSINA ROCAVALLI, famous violinist who will play daily at Pacific Coast Motor Power Show.

BUGS ON PRISONER; COURT HELD IN OPEN

SACRAMENTO, April 21.—"The next case on the calendar is that of J. J. Newell, charged with vagrancy," declared Police Judge J. J. Henderson during court yesterday. "Owing to the fact that the defendant has so many bugs on him the court will adjourn to the back porch, where the case will be heard."

His Honor took a seat on an old bench, while City Prosecutor Shelly stood up, and City Clerk Holmes, with his record book, braced himself against the wall. The defendant stood in the center of the porch all alone, for everyone feared to get too close.

HEALTH OFFICER IS KEPT ON JUMP WITH GERMS

Which has the most crooks to fight, the police department or the department of health?

The former certainly has its hands full trying to preserve law and order, for there are many ignorant and careless people who endanger life and property by disregarding the plain laws that pertains to each man's treatment of his fellows. There are too many selfish individuals who run automobiles and otherwise menace human lives. Given an inch, they take an ell if they can. The club of the law is the remedy while they are being educated.

There are out-and-out crooks, wife-deserters, bigamists, burglars, counterfeiters, embezzlers, thieves, murderers, robbers and all their unholy kind, misdemeanants, great and small. Who will watch and catch such crooks? The police, of course.

The knife and gun crook was all too busy, but the tubercle baccillus alone slew 4,204 people in 1915 and has at least 25,000 good citizens paying toll to its blackmail.

The pneumococcus crook killed 3,824 and did its best to get 20,000 to 30,000 more, young and old.

Three thousand eight hundred and eighty-nine died of heart disease. Most of these deaths were due to one or another of the crooks of infection.

Intestinal disease killed 2,623 infants under two years of age—more crooks getting in their nefarious work. And so it goes on.

How about the playgrounds and parks, also a municipal bath house? We must make a start sometime and the sooner the better.

If you know of any unsanitary condition, or have any complaint to make, kindly call the health office, Richmond 302, and we will take care of it. "That's what we are here for."

CHAS. R. BLAKE, M. D.
Commissioner of Health.

TWENTIETH CENTURY CLOTHES

NEW YORK, April 20.—News of the wealth heaped up in America, has led French designers to draw upon the period of greatest dress extravagance for their motif and Louis XV clothes that will deplete the pockets of the rich, are disturbing the average woman who wants pretty new clothes that suit her needs and pocket book. There is comfort for her in the fact that many women of taste and elegance who are perfectly able to buy what they like, refuse to wear extravagant French models, or the copies of them that drift down into all the shops, and are exploited by people who do not belong in exclusive circles. Street clothes especially are built on simple lines, but of excellent material, for the well groomed Knickerbocker set.

The majority of these women understand their own lines and pick unerringly the styles that are becoming, without regard for extreme models, which become commonplace as soon as cheap copies appear.

MATERIALS

Serge, Gabardines, and silk combinations with these materials are first choice for the spring suit or coat frock for general wear, as well as for the top coats that are so generally worn. For more elaborate street dress, all silk suits of faille, taffeta or satin lead in favor, while for afternoon frocks and those that answer for all formal day functions there are endless pretty models, in combinations of silk and Georgette Crepe. Fussy styles prevail, and every possible sort of made trimming finds a place on these. Quillings, puffings, shirrs and smocking and one sees the eyelet slits with ribbon or velvet runnings—hitherto confined to lingerie and wash frocks—on silk and crepe and chiffon skirts, in great variety of placement, with bows and rosettes as fastenings, placed where they will be most effective.

McCall Design

A PRETTY GRAY DRESS

A very pretty dress of pearl gray chiffon cloth seen the other day had two inch gros-grain ribbon in matching tone arranged as barrel tucks, from hem to nearly the waist line. The bodice trimmed with narrower ribbon disposed in quillings.

SILK AND COTTON OR LINEN

Combinations of silk and cotton or silk and linen are very much employed. A dress of cross barred blue taffeta silk has a collar of cape-like proportions in tan linen, and many of the practical foulard dresses in big polka spots, have belts, flaring cuffs and cape collars of linen to match the spot.

Dresses of cotton voile are trimmed with taffete silk in bands, tucks, bindings, puffings or other devices, and often have the Jerkin overblouse of matching silk in a detachable garment.

COLOR COMBINATIONS

All the old time color combinations are back, and with gray especially serve to vary the flatness of effect. Kings blue and gray—Du-Barry pink and gray, lilac and gray, and brown with gray as the contrasting trimming are some of the most frequent mixtures. Chinese yellow and blue and touches of Chinese embroidery smarten many frocks and blouses, and the liking for colored waists in lawn, linen or crepe increases rather than wanes.

NEW HATS

Straw hats have been so generally donned this year while the coldest weather of the year nipped us, that it seems a bit late to chronicle their shapes and trimmings, but with the approach of Easter, new types are exploited. Wide sailors are perhaps first choice with the girlish set, and very pretty and becoming in most instances, but they have to be poised just right to have the best effect. Top lofty shapes are matronly and stylish, while there are no end of small hats that suit any age and don't emphasize years one way or the other.

R. R. COMMISSION FIXES RATES AT BLACK DIAMOND

The State Railroad commission has issued an order fixing the rates to be charged by the Black Diamond Water company for water delivered to is customers. The company supplies water to Pittsburg, Contra Costa county, having a monopoly, and it was the city of Pittsburg that brought the complaint against the corporation before the commission. The flat rates are reduced from $1.75 to $1.25 a month for the ordinary family, and other rates are reduced proportionately. The controversy as to these charges arose two years ago when the city board of trustees of Pittsburg passed an ordinance fixing rates that effected a reduction of 15 per cent on the basic flat rate to customers and increased the number of irrigation hours. The company secured an injunction from the superior court, which action is still pending, the company continuing to operate under its old scale of rates. Last October, shortly after the railroad commission acquired jurisdiction, Pittsburg requested the commission to examine into the matter and fix rates. The company answered the complaint by saying that their rates did not even return them a fair interest on their investment.

Public hearings were held at Pittsburg in February.

Pittsburg was formerly called Black Diamond and was supplied with water by the Sacramento River Packing association. The present company was incorporated in 1906, and took over the Sacramento plant. The commission says that Pittsburg is growing very fast and that the resulting influx of population will add many customers to the company's system, but with slight additional expense. The company is not earning a large return upon its investment, but the commission says this is due not as much from the rates charged as from their form, the absence of meters tending to the excessive use of the water, the commission urging the company, according to its financial ability, to instal meters, only seven per cent of the estimated service being metered.

CHICAGO SUFFERS A RISE IN MILK PRICES

CHICAGO, April 21.—Officials of the Borden Condensed Milk company, which supplies a large part of the milk used in Chicago, have announced as a result of the raise in the wholesale price recently granted the producers they will raise the retail price today from 8 to 9 cents a quart.

The Ira J. Mix company, another of the large distributors, also has announced a raise.

AN IMPORTANT LESSON

One of the most important lessons that a child can learn is that money is the representative of labor; a reward for service rendered; compensation for doing something, and not a gift to be had for the asking. The penny that is earned has a vastly different aspect from the one that is solicited. When the child grows up he will find that the world will not hand out money for the asking, but only in return for value. The growing boy or girl can have no better lesson than to be compelled to return something for their spending money. Even though the service rendered be trivial, such as carrying wood, washing dishes, dusting, etc., the value of the lesson remains.

After earning money by labor, it becomes necessary that it should be well spent in order that benefit both morally and financially, be lasting. If the child is merely taught to earn in order to spend, he is acquiring spendthrift habits which will enlarge as the years go by, and be disastrous. Every parent owes a duty to the child in training it first to earn largely and then to spend wisely.

The selling of papers, running of errands for a store, and work of this order does not reflect on the standing of the parents—it is simply good training and those who regard it worth having will recognize this fact.

A certain mother in Staten Island whose boy used his out of school time in delivering packages for a dyeing establishment and earned $1 a week, had the right idea. She insisted he put a part of his earnings in the bank. As his earnings increased he increased a part of his savings. He thought it hard at first to bank rather than spend his money, until he got the habit, but now he is glad his mother was strict. He has recently bought an automobile out of his savings, which might appear extravagant, but with such training he is sure to turn it into an earning power.

A boy raised in such surrounding must be thrifty. This mother did not raise her boy to be a loafer, spending his time in pool rooms, or in the streets, wasting time, and learning bad habits; she helped him to capitalize his spare moments for substantial results later on in life.

Thugs quote a price of $40 for crippling a man and $20 extra for finishing him off. Reasonable enough. It costs the European power $3000 for every one of the enemy they put out out of action. They would save billions by hiring the work done by New York gangsters.

In the May American Magazine Fred C. Kelly says:

"A big cigar company which has more than one thousand stores over the country, insists that if a customer presents a lead quarter, the salesman must not chide him for doing so, but must offer sympathy, telling him that there is a lot of counterfeit money in circulation lately and that he evidently has been imposed upon by somebody. The theory is that it is better to let a guilty counterfeiter escape than to take a chance on making an enemy of an innocent customer."

Betting is always wrong and if it's on the action of the Chicago convention it's also foolish at this time.

NEW MEDICAL ERA

In the May American Magazine is an exceedingly interesting article by Dr. Richard C. Cabot, chief of the medical staff of the Massachusetts general hospital, who criticizes the way in which medicine and surgery are practised. "The present organization of medical service ('private practice')" he says, "is unnecessarily productive of wrong diagnoses and wrong treatments for everybody except the very rich and the very poor. While it is true that private practitioners do enjoy now and then a unique opportunity for the intimate personal guidance of their patients, yet this advantage is more than neutralized by the disasters necessarily resulting from diagnoses and treatments made without the help of the instruments, laboratories, and consultations on which accurate and intelligent medical work now depends. Only in hospitals can such group work, with proper division of labor and utilization of the resources of modern science, be had.

"Moreover, the fact that the private practitioner has to make his living out of disease handicaps his eagerness to diminish and prevent disease in his vicinity, and distracts him from putting his best efforts into the study and practice of preventive medicine and hygienic education.

"The remedy lies not in state sickness insurance of the German type, but in an insurance system centered round hospitals. This is no remote ideal. It had been in operation for eight years at the University of California and to a lesser extent in other state universities, where for a small annual fee the student body is served by a group of salaried physicians who work as a team in a hospital managed by the university. Thus for five dollars a year seven thousand students are enabled to get a better type of diagnosis, treatment and preventive advice than is now obtainable by any group of people in the country except the very rich and the very poor."

AMERICANS GETTING WELL

Man has been called the sick animal. An ordinary Bengal tiger or self-rsepecting armadillo does not overeat, or smoke or drink to excess, or stay up all night and awaken next morning with a bad taste in the mouth.

Civilized man is especially likely to be sick, for the things that improve life also make us ill through their abuse.

America has a tremendous sick list. A report on national vitality shows 3,000,000 people actually sick, at all times. Our sickness costs us $1,500,000,000 a year—about twice the revenue of the government. This estimate does not include the incalculable loss of efficiency of people who are just tired, fagged, below par.

As a sick nation we have done fairly. We could double, treble, quadruple our work if we wipe out sickness. It is no idle dream. It can be done. In fact, it is being done. One of the greatest reforms now on in this country is to "get well."

We have obliterated yellow fever, scurvy, and almost ended small-pox. In another generation any city that has a typhoid epidemic will be held up to public scorn. Today there are 500,000 people continually sick from tuberculosis, an easily preventable disease; in another generation tuberculosis should be rare. There are 3,000,000 cases of malaria every year; vigorous war on mosquitoes will make it unknown.

DIMMER TESTS ARE UNDERWAY BY OFFICIALS

Completing the investigations and tests of dimmers and deflectors for auto headlights, the experts with State Motor Vehicle Superintendent H. A. French today issued a report on their findings declaring that the best device is by bending the light standards so that the center rays strike the ground at a point not exceeding forty feet in front of the machine.

The committee did not recommend nor touch on any of the various types of dimmers tested. The tests were made at the request of Governor Johnson.

Under the motor vehicle law, passed by the legislature in 1915, headlights must be permanently dimmed, or the lights so arranged that the center rays shall strike the ground no further than seventy-five feet in front of the machine.

It was found in the tests made on the highway near this city that seventy-five feet is too great distance, and much danger exists, while forty feet eliminates almost all the danger.

Here is the report of the committee as given out today by Superintendent French:

On the night of the 18th and 19th of April your committee carefully investigated and tested all types of dimming devices submitted, and also, in connection therewith, and as a part of the same tests, your committee selected automobile headlights equipped with powerful lamps and by bending the standards of those lights so that the center rays struck the ground at a point not exceeding forty feet in front of the car found that practically the same result was accomplished, so far as eliminating the dangerous glare was concerned, as by the dimming devices submitted, and at the same time insured a better driving light than any of the types of dimmers tested.

The members of the committee are: Standish L. Mitchell, secretary Automobile Club of Southern California; D. E. Watkins, secretary California State Automobile association; J. A. Marsh, president Motor Car Dealers' Association of San Francisco; W. L. Williams, city prosecutor of Los Angeles; Charles Goff, head of San Francisco traffic squad; Frank D. Fagan, head of lamp department General Electric company; George R. Winslow, assistant engineer State Highway commission; H. A. French, superintendent of motor vehicle department.

SAYS HOT WATER EACH DAY KEEPS THE DOCTOR AWAY

Drink glass of hot water before breakfast to wash out the poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

WOODCRAFT WOMEN ENJOY JOLLY PARTY

EASTER STORY HOUR AT RICHMOND LIBRARY

The last and best of the Easter story hours for April will be given this Saturday at the library. The two especially beautiful stories on the program touch on the religious significance of the spring festival. The first, "Robin Redbreast" is a Christ legend telling how the robin won its red breast by service to Jesus as he was being crucified. The second is a tale taken from the beautiful poem by Longfellow, "Robert of Sicily" telling how a proud, selfish king had a change of heart at Easter time.

CHOP SUEY

Investigators of the department of agriculture who have just returned to Washington from the Orient report that chop suey is unknown in China, but is distinctly an American dish.

COYOTE TERRORIZES PORTOLA SCHOOL

PORTOLA, April 21.—A gaunt grey coyote, presumably rabid, terrorized Portola yesterday. It was first noticed when it attacked two dogs at the residence of Thomas Dorothy. Mrs. J. Hardy, who was passing at the time, narrowly escaped being bitten when the coyote broke away from the dogs and attempted to attack her. The dogs pulled it down again, however, before it reached her.

During the recess period it appeared at the school house, but the children chased it in a body and frightened it away. They were not aware of the real danger.

The Edison Triumphant

In our phonograph department yesterday afternoon we gave the Edison Diamond Disc Phonograph a very severe test and the numbers of people present will bear out our statement that the re-creation of both the human voice and musical instrument was perfect.

Miss Zhay Clark, a harpist of national prominence, alternated with a beautiful harp record, and **it was impossible to distinguish between the actual instrument and the Edison re-creation.**

The same was true of the songs in which Mrs. C. Langan alternated with various records.

To those present these facts were demonstrated beyond all doubt, and we will be pleased to play any of these wonderful records for you in our Edison Phonograph Department

The Edison is the only Phonograph to which such a test can be applied.

The Edison should be YOUR Phonograph. We sell them on very easy terms.

RECRUITING PLAN FOR BRITISH ARMY

LONDON, April 21.—At a meeting today of the cabinet an agreement was reached upon the proposals the ministers will make to parliament on the subject of recruiting. The proposals will be submitted at a secret session of each house of parliament on Tuesday. The foregoing was announced in an official statement issued this afternoon.

It is understood that a proposition advanced by Arthur Henderson, President of the board of education and a labor leader, will have the effect of re-opening the voluntary enlistment scheme for a month or six weeks, and that this proposal was accepted in principle by the cabinet with a view to ascertaining whether sufficient men would come forward for military service without the introduction of general compulsion.

The labor members, however, demand that all facts and figures regarding the situation and requirements shall be submitted to the house of commons before they consent to any measure of universal conscription. This has not been confirmed officially.

Mary Pickford In "Poor Peppina" at Richmond

If there have even been any doubts as to the versatility of Mary Pickford, the Famous Players Film company's star will dispel them by her wonderful performance in that company's splendid production of Kate Jordan's "Poor Little Peppina," following upon her last Paramount picture, "Madame Butterfly," in which she so perfectly characterizes the little Japanese girl, Miss Pickford in this production, which is the feature at the Richmond theater tonight, creates a character new to her admirers—an American girl who has been stolen by Italians when a mere baby and brought up as one of their own children. Her native tongue and all thought of her real parentage totally obliterated, she is to all intents and purposes a real Italian girl. But there lingers about her an indefinable something that leaps into fire when she is finally reunited with her parents by a simple little prayer that forms the only heritage of her childhood.

She has been injured while attempting to save the life of the man whom she has fallen in love with and as she tosses in her delirium, she mutters the little prayer. Her mother, bending over her in sympathy for the supposed messenger boy—for Peppina has been earning her living as a boy—catches the feeble words and starts an investigation which soon reveals the true identity of the girl.

Peppina is a difficult role because it requires the most careful of treatment in order to preserve the idea of the real American parentage of the girl whose correct name is Lois. Though it must be perfectly feasible for Peppina to pass herself off as an Italian, still she must not make her transposition to Americanism too sudden when her identity is established.

Concluding the program will be the Pathe News pictures showing the wreck of the Twentieth Century Limited and the American soldiers hot on the trail of Villa, and a one reel American comedy, "Hapless Happenings."

U. S. POPULATION IS 102,804,000

WASHINGTON, April 21.—The population of continental United States on April 1 was 102,804,000, as estimated by the treasury department statisticians in computing the per capita money circulation of the country, which they place at $33.41, an increase of $3.67 over the per capita circulation of April 1 last year.

BLACKHANDERS ON TRIAL FOR EXTORTION AT COUNTY SEAT

MARTINEZ, April 21.—Peter La Fata of Richmond and Antonio Pedona of San Francisco, alleged blackhanders, are having their preliminary hearings before Justice Charles H. Hayden. The charge against the men is extortion in that they are alleged to have demanded $3000 of Antone B. Davi of Pittsburg.

The prosecution is being handled by Chief Deputy District Attorney A. S. Ormsby, while Attorney J. E. Rodgers is looking after the interests of the defendants.

The little court room was crowded today with the relatives and friends of the accused as well as many of the county officers and witnesses who are expected to be called by both sides.

That the attorney for the defense intends fighting every bit of evidence offered by the prosecution was evident from the morning's proceedings, and the preliminary promises to be replete with interesting incidents.

LaFata is supposed to be the leader of the alleged black handers while Pedona is the "strong armed man."

LaFata is alleged to have delivered the letter to Davi in which $3000 was demanded. Davi is said to have given up $100 and then reported the matter to the local district attorney's office and no time was lost in running the man down. LaFata was arrested the early part of February, while Pedona was picked up after a chase and hide and seek game in San Francisco, after he had attempted to use a big gun on Undersheriff William Veal, Deputy Sheriff Don Salituri and Constable Charles Palmer at his home on February 25 last. Both are in jail in default of $10,000 bail each.

In Pedona's house were found two sawed off shotguns, a quantity of paper similar to that used by blackhanders to various persons.

This morning Davi testified to having received the threatening letter. He said that it had a dagger run through it. The letter was not produced in evidence, but it is expected that it will be before the preliminary is concluded.

From the manner in which the preliminary began, several days will be consumed in reaching a conclusion.

GERMANY CELEBRATES ENGLISH BARD'S DAY

WASHINGTON, April 21.—Germany will celebrate generally next week the three hundredth anniversary of the birth of Shakespeare, say advices reaching here today from the American Association of Commerce and Trade in Berlin. The Englishman's plays will be presented in many cities throughout the Empire.

Max Reinhardt, the producer, will stage several Shakespearean dramas during the week at the Deutsches theater in Berlin. The Volksbuhne in Berlin and the Royal theater in Dresden also will present Shakespeare's works.

Shakespeare for many years has been considered almost a national poet in Germany, and translations are almost counterpart of the English translations.

FRANCE TELLS OF DEATH; ESTATE NOW SETTLED

SAN FRANCISCO, April 21.—On the certificate from the French government attesting the death of Edward Besones from here on a French battlefield last December, Judge J. V. Coffey today ordered the distribution of Besones' estate to his father and mother in Paris. The estate is a small one. This is the first instance where proof of death came from one of the belligerent countries to this city.

HERE'S LATEST IN ART OF "BUNKOING"

CHICAGO, April 21.—The very latest in confidence games was revealed here today through the arrest of Harry Watson by agents of the department of justice. Watson, it is said, rode in and out of Chicago on passenger trains, questioning passengers as to what kind of money they carried. When he found unsuspecting persons carrying Canadian money, it is alleged, he informed them at it was unlawful to transport British money from one state to another. Then he would take the money. His arrest came as the result of a complaint of a passenger who said Watson "confiscated" $146 of his Canadian money.

WESTERN OIL WINS ON DUNCAN HILL GRADE

"One of the most significant features connected with the sensational Duncan street hill climbing contest pulled off in San Francisco recently, and the feature that probably means most to Pacific coast motorists, said F. A. Williamson, district sales manager of the Standard Oil company, is the fact that, with few exceptions, the cars that successfully negotiated that now famous fifty per cent grade, had their crankcases filled with oil made from western asphalt-base crude."

"Every prospective car buyer in that neck of the woods had his eye on the machines that went out to conquer Duncan hill. And no one was more awake to that fact than were the motor car dealers themselves.

"So, when they saw to it that their test cars were filled with western oil, there was a great deal more back of it than any mere feeling of loyalty to home industry One dealer is reported as having said—'any inferior oil would have proved disastrous.' Evidently most of them considered western oil as the one best bet."
